Travel Program

Day 1: Arrival at Uyuni

Welcome to one of the most spectacular places in the world! A representative will greet you on arrival and transfer you to your glamping site.

The Salar de Uyuni (Uyuni Salt Flats) drastically change with the seasons. During the dry season, they are seemingly-eternal white plains that merge with the horizon. Their unique vantage point makes for optical illusion photo-ops that have made the flats Insta-famous. During the wet season, the flats flood to create a perfect mirror effect with the sky. The visual result seems straight out of a movie.

You'll be staying in a glass dome that makes you feel as if you were sleeping outside. At night, you'll be able to gaze up at the stars from the comfort of your bed and feel truly immersed in this unique landscape.

Days 2-3: Tours Through the Uyuni Salt Flats

Today, you'll have your choice of activities in the salt flats. You can choose between cultural activities and adventure activities, or get a bit of both for a great mix and match experience. Excursion times vary, so you might be able to do multiple in a day.

Visit the Archaeological Site of Alcaya

Duration: Half-day activity; approx. 1-hour drive from the lodge

A Kachi guide and one of the local villagers will guide you through the burial site of Alcaya. Located at the foot of the spiritual **Thunupa Volcano**, the site is significant to the indigenous Quechua and Aymara cultures that live on the northern edge of the salt flats.

Wonder at the preserved individuals buried thousands of years ago with their possessions so that they wouldn't enter the next life empty-handed. Afterward, you will have the opportunity to do a cultural exchange with the locals.

Farming Activities in Jirira Village

Duration: 2-3 hour activity, a short drive or bike ride to the village

The main subsistence activities of the local communities (apart from salt harvesting) are llama farming and quinoa harvesting. In this activity, you will be able to help the locals in their daily activities.

Join Carlos for his daily routine of herding and tending to the llamas. Learn about the process of creating llama jerky and then taste the fruits of your labor.

You can also learn about one of the world's popular superfoods at Berta's quinoa plantation. Bolivia is one of the biggest producers of this grain, and this region of the altiplano is ideal for its production. Depending on the season, you'll be involved in the sowing, harvesting, or processing of the crop.

Visit Coquesa Village

Duration: 1-2 hour activity, a short drive from Kachi Lodge

Coquesa is a beautifully-preserved village with impressive colonial buildings. See the local church, museum, and town square, and enjoy the peaceful charm of the community.

Downhill Mountain Biking on the Edge of the Thunupa Volcano

Duration: 3 hours, 1-hour drive from the lodge

For the adventure seeker, this is one of the more extreme activities offered. Driving up to nearly 16,400ft (5,000m), you'll get a magnificent view of the salt flats. From here, it's downhill all the way,

and you can enjoy the challenging twists and turns of the dirt roads.

It is recommended that participants in this activity are confident with off-road mountain bikes. Your guide will be there to give additional instructions and advice.

Trek to the Thunupa Volcano Crater

Duration: Half-day activity

The Thunupa volcano is considered a center of energy for local communities. What better way to experience its magnificence than by reaching the edge of its crater at 16,400ft (5,000m)?

A challenging 4x4 track on the western side of the peak will take you much of the way, followed by a 1 ½ hour trek to the crater. You'll be rewarded with a spectacular panoramic view.

4x4 Ride Across the Salar

Duration: Half-day activity

All visitors usually ride a 4x4, as this is the way to access accommodations. En route, however, you can take some detours to visit the less frequented "islands" found in the middle of the flats.

While the flats flood only during the rainy season, you can always find the impressive *Ojos de Sal* (Salt Eyes), which are natural pools of water that often create large salt crystal formations.

Enjoy a private picnic lunch and then have fun taking creative pictures that use the salar's expansiveness and flatness to make optical illusions.

Finally, you'll do a visit to the *salinas* to learn about the salt extraction process.

Trek to the Peak of Kachi Island

Duration: 1 hour

Incahuasi Island is a popular attraction that is often overrun by tourists. Rather than deal with crowds, you can go to "mini Incahuasi." Located quite close to the lodge, you'll ascend a zig-zag trail to catch a gorgeous sunrise or sunset.

Astronomy Experience at the Lodge

With telescopes and expert guides on hand, you can take advantage of the flats' usually clear night sky. A lack of artificial light means you can enjoy the constellations more fully than almost anywhere on the planet. Learn about Andean cosmology and the beliefs that ancient cultures had about the night sky.

Biking Across the Salar

Bicycles are available to be checked out throughout the day. Feel free to hop on one and explore the salt flats at your leisure.

Frequently Asked Questions

What our travelers or clients always ask questions before joining our trips, tours & expeditions, read all the information provided here.

Suggested FAQs

[What experience and how fit do I need to be to climb this mountain? Is this program suitable for children or older people?](#)

For our mountain climbing trips: If they are easily accessible mountains: For easy-climb mountains, well, you don't need much experience, but if you already want to climb mountains above 6,000 meters and the conditions become more difficult, we recommend if you already want to go through mountains above 6,000 meters, have a basic or intermediate course for a good preparation. It is very important to be physically, technically and psychologically prepared.

Regarding the preparation of children: Everything will depend on which mountain you want to climb with your children, once you are clear on which of our tours or mountains you want to go with your children, we can give you some advice or see how to prepare them before going with them.

Regarding older people: It all depends on the condition of experience and how well the person is in health, on many occasions older people are the best to walk in the mountains because they have more experience, so it is always good to ask and find out about their experience of older participant. [What happens in the event of bad weather?](#)

About the meteorological conditions of the climate, we try to organize the trips of each tour in the best season to have the best views and enjoy the selected trip but sometimes even in good season we can have bad weather, in this case on hiking or treks trips the complications are minimal, but when this

happens during high-altitude climbing expeditions, the complications can become very difficult, that is why the bosses or leaders of the local guides must always make the most correct decision for the safety of our passengers, so we always recommend listening to the best advice from the local guide assigned for each tour. If you have any other questions please contact us. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

[Can I join a group?](#)

We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

Why go in a private trip: For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would already be private .
