Day 1: Welcome to La Paz!

Welcome to **La Paz**! A representative will greet you at **El Alto International Airport** and transfer you to your accommodation.

Once you are settled, you'll have a cup of coca tea, which will energize you and help you get used to the altitude. At 11,942ft (6,440m), La Paz is the highest administrative capital in the world, and there is 50% less oxygen here than at sea level.

While you acclimatize, a representative will go over the itinerary, answer any questions you may have, and give you inside tips about Bolivia.

Tonight, we recommend that you take it easy and rest well.

Day 2: La Paz Urban Trek

Today, you will take the famous “Mi Teleférico” cable car up to **El Alto**, one of La Paz’ suburbs. Then, you’ll “trek” your way down to the center of the city.

You will take to the streets like a local during the 4-hour descent through markets, neighborhoods, plazas, and alleyways. After reaching El Alto—at a dizzying 13,615ft (4,000m) above sea level, one of the highest cities in the world!—prepare to be dazzled by the views of the Andes. Enjoy the sights of La Paz as you walk down through the “Hanging Neighborhoods” that surround the city.

To top it off, you will take a *micro* or local bus (think oldie Bluebird school buses painted a rainbow of colors) to the heart of the markets area. Here, you’ll be able to shop around and go to different markets, including the famous **Witch’s Market**.

You’ll have the evening free to rest or explore more of the city at night.

It's an early start today as you head to **El Alto International Airport** for a 60-minute flight to the southern town of **Uyuni**—the gateway to the **Uyuni Salt Flats** and **Eduardo Avaroa Andean Fauna National Reserve**. It is very important to be physically, technically and psychologically prepared.

**Regarding the preparation of children:** Everything will depend on which mountain you want to climb with your children, once you are clear on which of our tours or mountains you want to go with your children, we can give you some advice or see how to prepare them before going with them.

### [What happens in the event of bad weather?](#)

About the meteorological conditions of the climate, we try to organize the trips of each tour in the best season to have the best views and enjoy the selected trip but sometimes even in good season we can have bad weather, in this case on hiking or treks trips the complications are minimal, but when this

happens during high-altitude climbing expeditions, the complications can become very difficult, that is why the bosses or leaders of the local guides must always make the most correct decision for the safety of our passengers, so we always recommend listening to the best advice from the local guide assigned for each tour. If you have any other questions please contact us. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

### [Can I join a group?](#)

We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

**Why go in a private trip:** For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would already be private .
