### Equipment Mountain

- 3 Locking carabiners, we recommended per person
- We recommend 2 ice screws for each client
- 1 Daisy Chain (Life Line) per each person
- 2 Ice axes (per person) technical, we recommended GRIVEL company
- 1 ATC descender (Rappel), this is very necessary for technical mountains
- 2 Cords for prusik, very important (Size Cord 6 mm x 10 m. long)
- Gloves(Good gloves) for expeditions over 6000meters
- Harness for climbing
- Sleeping pad / Mattress, we recommend with air or inflatable mattress
- Crampons, we recommended GRIVEL company
- Walking sticks – Trekking Poles (optional), a pair per person, we recommended GRIVEL company
- Down Jacket for expedition
- Very important to have personal clothing such as pants and jacket with GORE-TEX certification
- First aid kit, for high mountains, because we as guides cannot medicate clients
- Backpack Capacity 60 liters, it is better to have a bigger backpack to go comfortably to the high camps, because here you have to carry all your personal things
- Gaiters or Leggings, now modern boots already have built-in (Incorporated), but better to have an extra pair

Dressing appropriately for the mountains can make the difference between a pleasant trip and a really uncomfortable one. Clothing must provide the right degree of temperature, perspiration and be well ventilated. Preferably cotton clothing should be avoided, as in humid conditions they absorb body heat.

In general, the weather conditions in the Andes of South America can vary from day to day and even throughout the day. Therefore, clothing must be versatile.

Please do not hesitate to contact us with any questions you may have regarding the necessary equipment.

# Frequently Asked Questions

What our travelers or clients always ask questions before joining our trips, tours & expeditions, read all the information provided here.

## Suggested FAQs

### What experience and how fit do I need to be to climb this mountain? Is this program suitable for children or older people?

**For our mountain climbing trips:** If they are easily accessible mountains: For easy-climb mountains, well, you don't need much experience, but if you already want to climb mountains above 6,000 meters and the conditions become more difficult, we recommend if you already want to go through mountains above 6,000 meters, have a basic or intermediate course for a good preparation. It is very important to be physically, technically and psychologically prepared.

**Regarding the preparation of children:** Everything will depend on which mountain you want to climb with your children, once you are clear on which of our tours or mountains you want to go with your children, we can give you some advice or see how to prepare them before going with them.

**Regarding older people:** It all depends on the condition of experience and how well the person is in health, on many occasions older people are the best to walk in the mountains because they have more experience, so it is always good to ask and find out about their experience of older participant. If you have any other questions, please contact us. **For calls or inquiries to this number:** [+51 943 081 066](tel:+51943081066)

### Will I need to bring any technical equipment of my own? Is it possible to rent equipment, and if so, what would be the approximate cost of that?

In all our trekking or mountaineering trips we do not include personal equipment in our prices, so you have to have your own equipment: Personal equipment (such as boots, ice ax, crampons, harness, sleeping bag, mat, Goretex, etc. ) and also within each page of the trips that we sell is a small list so you can see it on our website.

Our company can also rent the materials that you would need for your trip, see the list here on our website: <https://peru-expeditions.org/equipment-rental/> . **For calls or inquiries to this number:** [+51 943 081 066](tel:+51943081066)

### Are there any other special requirements such as permits/insurance/vaccines that I need to consider before the tour?

**Safe and effective vaccines are available that provide strong protection against serious illness, hospitalization and death from COVID-19.** Billions of people have been vaccinated against COVID-19. Getting vaccinated is one of the most important things you can do to protect yourself against COVID-19, help end the pandemic and stop new variants emerging.

We also recommend having accident insurance, we always recommend. We are **Partners –Global Rescue**. If you have any other questions about the trip we can schedule a date for a calling via WhatsApp. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

#### **What experience do I need to have? How fit do I need to be? Is this program suitable for children or older people?**

To do long-distance hiking you need to at least train or do some tours such as visiting lagoons to get the experience and feel comfortable with what you do, it is always good before doing a long-distance hiking tour to test yourself so as not to be with the problems of altitude sickness during the trekking, and if you travel with children it is good to first train them before taking them, if they are accompanied by an adult of legal age, they must do a good acclimatization before going on the long-distance tour or with high altitude camps If you want to know or learn more advice, we can schedule a call via WhatsApp to clarify your doubts. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

#### **How far in advance should I start training and what kind of training do you suggest?**

The preparation is according to what type and what technical level you want to go and climb a trek or mountain, the preparation will always gain experience little by little.

For this type of demanding or technical climbing sports, it is recommended to do some summits above 5 thousand meters beforehand and have good knowledge of high mountain technical equipment such as the use of technical ice axes, ice screws, correct use of crampons, and of course all the technical material. For more information, we can schedule an appointment to be able to explain in more detail everything about the mountain equipment and the preparations prior to joining our outings. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

### **Do I have what it takes to succeed on this expedition?**

In the interest of the team's enjoyment and success, we work with every single guest to ensure they are properly prepared and ready for this expedition. We pride ourselves on vetting every member to make sure that the team can bond and succeed together. It really sucks to be grouped with members that are much faster, or much slower, than you are. No one wants to be the weakest link on a trip like this. By setting expectations and a solid training plan, we work to insure maximum cohesive success. Use this trip as an exercise motivator, and we will succeed together with style.

### **How can I get to the trailhead/meeting point?**

For the pick-ups of each trip, depending on the place or the trip that you are going to make with us, the meeting point is always at our office, in one of our trips we pick you up where you are staying or staying, or in some cases a representative of our company will pick you up and then ship you to your transport to continue with your destination of the tour or trip you have booked with us. If you wish to request more information, do not hesitate to contact us. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

### **What happens in the event of bad weather?**

About the meteorological conditions of the climate, we try to organize the trips of each tour in the best season to have the best views and enjoy the selected trip but sometimes even in good season we can have bad weather, in this case on hiking or treks trips The complications are minimal, but when this

happens during high-altitude climbing expeditions, the complications can become very difficult, that is why the bosses or leaders of the local guides must always make the most correct decision for the safety of our passengers, so we always recommend listening to the best advice from the local guide assigned for each tour. ## **Can I join a group?**

We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

**Why go in a private trip:** For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would already be private .
