

Discover La Paz, Lake Titicaca & the Uyuni Salt Flats – 5 Days

Description

In just five days, this exhilarating itinerary takes you to three of Bolivia's top destinations. Start the journey in La Paz, where you'll ride a cable car to the adjacent city of El Alto, taking in incredible views of the Andes. Visit the UNESCO-honored ruins of Tiwanaku before boarding a catamaran cruise around Lake Titicaca. Visit the Island of the Sun and ride on a traditional Totora raft, then catch a quick flight to Uyuni. You'll spend the last full day of the trip exploring the famous salt flats — one of the most photographed places in South America — before circling back to La Paz for one last night on the town before the trip ends.

Day 1: Explore the Ruins of Tiwanaku

Welcome to **Bolivia!** Today your guide will take you to the ruined city of **Tiwanaku**, a UNESCO World Heritage Site. You will see the main temples, some of which are still under excavation, including the **Pyramid of Akapana**, **Kalasadaya**, and **Puma Punku**, and the inspiring **Gateway of the Sun** and **Gateway of the Moon**. In addition to these traditional examples of Tiwanaku's architecture, giant monoliths and figurative representations are scattered throughout the archeological complex. Their construction remains a mystery: huge stone blocks (the heaviest weigh 45 tons each!) were placed with such precision that not a single gap exists between them. In the evening, head to your hotel in **La Paz** to get some rest.

Suggested FAQs

[What experience and how fit do I need to be to climb this mountain? Is this program suitable for children or older people?](#)

For our mountain climbing trips: If they are easily accessible mountains: For easy-climb mountains, well, you don't need much experience, but if you already want to climb mountains above 6,000 meters and the conditions become more difficult, we recommend if you already want to go through mountains above 6,000 meters, have a basic or intermediate course for a good preparation. It is very important to be physically, technically and psychologically prepared.

Regarding the preparation of children: Everything will depend on which mountain you want to climb with your children, once you are clear on which of our tours or mountains you want to go with your children, we can give you some advice or see how to prepare them before going with them.

[What happens in the event of bad weather?](#)

About the meteorological conditions of the climate, we try to organize the trips of each tour in the best season to have the best views and enjoy the selected trip but sometimes even in good season we can have bad weather, in this case on hiking or treks trips the complications are minimal, but when this

happens during high-altitude climbing expeditions, the complications can become very difficult, that is why the bosses or leaders of the local guides must always make the most correct decision for the safety of our passengers, so we always recommend listening to the best advice from the local guide assigned for each tour. If you have any other questions please contact us. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

[Can I join a group?](#)

We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

Why go in a private trip: For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would already be private .
