### Day 1: Arrive in La Paz

Welcome to Bolivia! A representative will greet you at **El Alto International Airport (LPB)** in La Paz and transfer you to your hotel. Once you check in and get settled, you can share a cup of coca tea with your guide and go over your itinerary, ask questions, and learn a bit more about Bolivia.

We recommend that you take it easy today since there is 50% less oxygen at this altitude, and steady acclimatization is essential to enjoying your trip.

Day 3: Transfer to Rurrenabaque – Canoeing & Hiking in Madidi National Park

Today, a driver will pick you up from your hotel in La Paz and take you back to the airport for your short 45-minute flight to **Rurrenabaque**. When you land in the heart of Bolivia's Amazon, you will have a short briefing with your guide before heading to the river to board your canoe. planet's most biologically diverse places.

You will arrive at our eco-lodge by noon, and after you settle in, you will meet your hosts who are members of the Tacana indigenous people. After a delicious lunch and refreshing tropical juice, you will go on an excursion into the rainforest. The focus of your walk will be to learn about all the plants of the rainforest that the Tacana people use in their communities for making medicine, building, and food.

As the sun begins to go down, you might get lucky and catch a glimpse of pig-like peccaries and monkeys. When you return to the lodge, you will eat dinner and have the rest of the evening to relax.

There will be a secured boat nearby for you to store your backpacks and for those who prefer not to participate in the hike to utilize.

#### [What experience and how fit do I need to be to climb this mountain? Is this program suitable for children or older people?](#)

**For our mountain climbing trips:** If they are easily accessible mountains: For easy-climb mountains, well, you don't need much experience, but if you already want to climb mountains above 6,000 meters and the conditions become more difficult, we recommend if you already want to go through mountains above 6,000 meters, have a basic or intermediate course for a good preparation. It is very important to be physically, technically and psychologically prepared.

**Regarding the preparation of children:** Everything will depend on which mountain you want to climb with your children, once you are clear on which of our tours or mountains you want to go with your children, we can give you some advice or see how to prepare them before going with them.

### [What happens in the event of bad weather?](#)

About the meteorological conditions of the climate, we try to organize the trips of each tour in the best season to have the best views and enjoy the selected trip but sometimes even in good season we can have bad weather, in this case on hiking or treks trips the complications are minimal, but when this

happens during high-altitude climbing expeditions, the complications can become very difficult, that is why the bosses or leaders of the local guides must always make the most correct decision for the safety of our passengers, so we always recommend listening to the best advice from the local guide assigned for each tour. If you have any other questions please contact us. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

### [Can I join a group?](#)

We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

**Why go in a private trip:** For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would already be private .
