Day 3: Explore Kuélap's archaeological ruins

After an early breakfast, depart for the archaeological ruins of **Kuélap**, the fortress of the Chachapoyas, known as the “Warriors of the Clouds.”

First, drive for 1 hour south to reach Kuélap and then board a cable car for a 20-minute journey to **La Malca**, the starting point for your visit. Upon entering La Malca, there’s an easy, 1-mile walk, which takes about 30 minutes.

From here, a local guide will teach you about this fortified city, which stands 9,800 feet above sea level. Humans have lived in the area of Kuélap since the 5th century CE, but most of the structures were built between the 10th and 12th centuries CE (the fortress walls were discovered in 1843).

In total, Kuélap is made up of around 550 structures, all of which are circular, except for five. Make sure to check out notable sites, such as **Major Temple** and **El Torreón**. Many of the buildings still contain friezes that represent the deities of the Chachapoyas civilization.

The tour will last about 2-3 hours, followed by lunch in a local restaurant. From here, return to La Malca, by foot, and then transfer back to Chachapoyas, by car, for the evening.

Day 4: Scenic hike to Gocta Waterfall

Today is an active one, so make sure to enjoy a hearty breakfast before leaving for **Cocachimba**, the starting point of your hike to the **Gocta Waterfall**.

Gocta is one of the highest waterfalls in the world, standing at 2,500 feet. Although this waterfall was known to the local community for centuries, it wasn’t until 2002 that the world caught wind of it after a

German expedition publicized its location. The surrounding communities had kept the waterfall a secret based on a local legend that a mermaid protecting its waters would curse those who revealed its whereabouts.

The hike will take you through a beautiful setting to experience the lush, abundant vegetation that creates this cloud forest. Along the way, spot local flora and fauna, such as spatuletail hummingbirds and *gallito de las rocas* (the national bird of Peru), as well as orchids and bromeliads.

Note that the higher altitude of this waterfall makes it a more challenging hike, which takes about 6 hours, total. For an alternate way of visiting Gocta, you can travel by horseback. Keep in mind that the last mile of the journey will have to be done on foot since there is no path suitable for horses; this portion takes 45 minutes each way.

After immersing yourself in the natural beauty of Gocta, return to Chachapoyas for the evening.

Clothing must provide the right degree of temperature, perspiration and be well ventilated. Preferably cotton clothing should be avoided, as in humid conditions they absorb body heat.

Suggested FAQs

For our mountain climbing trips: If they are easily accessible mountains: For easy-climb mountains, well, you don't need much experience, but if you already want to climb mountains above 6,000 meters and the conditions become more difficult, we recommend if you already want to go through mountains above 6,000 meters, have a basic or intermediate course for a good preparation. It is very important to be physically, technically and psychologically prepared.

Regarding the preparation of children: Everything will depend on which mountain you want to climb with your children, once you are clear on which of our tours or mountains you want to go with your children, we can give you some advice or see how to prepare them before going with them.

Regarding older people: It all depends on the condition of experience and how well the person is in health, on many occasions older people are the best to walk in the mountains because they have more experience, so it is always good to ask and find out about their experience of older participant. [What happens in the event of bad weather?](#)

About the meteorological conditions of the climate, we try to organize the trips of each tour in the best season to have the best views and enjoy the selected trip but sometimes even in good season we can have bad weather, in this case on hiking or treks trips the complications are minimal, but when this

happens during high-altitude climbing expeditions, the complications can become very difficult, that is why the bosses or leaders of the local guides must always make the most correct decision for the safety of our passengers, so we always recommend listening to the best advice from the local guide assigned for each tour. If you have any other questions please contact us. **For calls or inquiries to this number: [+51 943 081 066](tel:+51943081066)**

[Can I join a group?](#)

We as a local company and connoisseurs of tours have departures on different dates. The best thing to do is to join a travel group to take care of your budget, and of course you can join our groups, but on trips like mountaineering we recommend going in small groups. To join a group, ask us for the dates and we will send you the necessary information to be able to join any of our trips.

Why go in a private trip: For trips whether trekking or high mountains, going privately is the most recommended option, but the costs are more expensive. So, if one joins a group, the prices will be more reasonable. In the mountains, the only disadvantage is if you are in a wall with another partner and if one of the participants gets tired or gets sick. In this case, you have to abort or cancel the summit and return together. For more information, contact us. We can schedule a call via WhatsApp to clarify all your questions.

In a mountain, for example, if 3 people go and one of the participants falls ill on the route, for security reasons they have to cancel or abort the summit or return all together. The same in a technical mountain if the climbing partner gets sick they all have to return, for these reasons sometimes it is better to go private only because for a single person the costs are more expensive for the same reason that the trip would already be private .
